About Me

A keen student looking to acquire practical skills in the field of Computer Science by working as an intern among experienced professionals, and to make an informed decision on career choices in the field

Experience

Hello Hackers
Event Host

Hosted the annual flagship event of college club – CHIPSET. Developed strong leadership, team-building and presentation skills.

SSNMUN' 23
Delegate of Poland

Participated in Model United Nations. Had an insightful and interactive experience that boosted confidence and improved communication and interpersonal skills

TIDC INDIA
Intern

Learnt about the business model and engineering aspects of a productbased company - TI Diamond Chains. Expanded on the prior knowledge on how industrial product business works

TNIMUN'21
Delegate of Iran

Got the opportunity to speak about the interesting real-life geopolitical scenarios. Gained extensive understanding on networking and its perks both in event and outside.

Jelvix Essay-Writing Competition
2nd Position

Secured second place in an international level Essay Writing Competition on 'Supply chain automation and its future'. It greatly aided in improving research skills and also expanded essay-writing ability.

Breakthrough Junior Challenge 2020
Top 30%

A Khan Academy International competition on any STEM Topic. Learnt video editing skill from scratch and developed a video on the topic 'Matrix Factorization'. Ranked in the top 30% among the global challengers.
